

CPU COVID-19 Dashboard

Illness, positive cases and those in quarantine represent the actual number of students who were ill, actively positive, or in quarantine on the date of reporting.

Quarantine data includes ALL quarantines (actual and self-imposed)

CML identifies the cumulative number of positive COVID cases on the date of reporting

Per the Iowa Department of Public Health, the exact number of positive COVID-19 cases may not be reported until the number exceeds 6.

If our current count is less than or equal to 6, this data will be entered as "50".

In the event count > 1 building indicates <5; a district total will not be provided

Primary Students				Intermediate Students				Middle School Students				High School Students				District Students				District Staff
